Man I promise, she's so self-conscious, she has no idea what she's doing in college. That major that she majored in don't make no money, but she won't drop out, her parents will look at her funny. Now, tell me that ain't insecure. The concept of school seems so secure. Sophomore three years aint picked a career, she like fuck it, I'll just stay down here and do hair. Cause that's enough money to buy her a few pairs of new airs. Cause her baby daddy don't really care, she's so precious with the peer pressure. Couldn't afford a car so she named her daughter Alexis. She had hair so long that it looked like weave, then she cut it all off now she look like Eve. And she be dealing with some issues that you can't believe. Single black female addicted to retail and well. Man I promise, she's so self-conscious, she has no idea what she's doing in college.
